## Flutter Developer

gpggovind887@gmail.com | 8590574926 | [LinkedIn](#) | [GitHub](#) | Malappuram, Kerala

---

## SUMMARY

Flutter Developer specializing in creating mobile applications for Android and iOS using Flutter. Skilled in state management, API integration, and Firebase services. Successfully hosted apps on the App Store and Play Store. Dedicated to developing practical and user-friendly solutions, particularly in healthcare and productivity tools.

---

## TECHNICAL SKILLS

- Frontend: Flutter, Dart
  - Backend: Firebase, REST APIs
  - Database: Hive, Sqflite
  - Version Control: Git, GitHub
  - State Management: Riverpod, GetX, Provider, Bloc
  - Platforms: iOS (App Store), Android (Play Store)
- 

## PROFESSIONAL EXPERIENCE

### Flutter Developer (1 Year)

**Grapes IDMR** - info-park thrissur

- Built and deployed mobile applications on Android and iOS platforms, focusing on usability and performance.
- Collaborated with team members to develop G Office, a productivity application to streamline office workflows.
- Independently designed and implemented other key projects, ensuring timely delivery and high-quality standards.

### Key Projects:

- G Vision: Contributed to the development of this healthcare app for refractionists. Responsible for implementing UI components and integrating features to improve functionality.

- G Office: Worked as a team to develop this app, ensuring seamless task management and workflow features.
  - Token Printing App: Independently developed a kiosk-based application for hospitals, enabling efficient token generation and integration with IMIN printers.
  - Bridge: Created an app to help hospitals monitor Annual Maintenance Contract (AMC) statuses for better resource management.
- 

## **Flutter Intern**

### **Brototype (6 Months)**

1. Completed a structured training program with mentorship from experienced developers.
2. Developed multiple Flutter applications under guidance, focusing on key aspects of mobile development such as UI/UX design, state management.
3. Reviewed code and received constructive feedback from mentors to enhance app quality and functionality.

### **Key Projects at Brototype:**

- **Pixelsx - E-commerce App**

GitHub: [Pixelsx](#)

- Developed an e-commerce app with features such as product monitoring, cart, wishlist, product history, and user profiles.
- Technologies: Firebase for authentication, Razor Pay for payments, Riverpod for state management.

- **Water Reminder - Your Health Companion**

GitHub: [Reminder App](#)

- Created a health-focused app for hydration and medication reminders, with features like history tracking, date filters, and alarms.
  - Technologies: Hive for storage, Syncfusion for charts, Provider for state management.
- 

## **EDUCATION**

- ITI in (DTPO)  
Govt. ITI, Koyilandy (NCVT Certified)
